Three Entrants Lose
CHICAGO—Trials in only three events for today's western conference track and field meet gave small hope on the probable winners. The track was slow, due to rain, and the surprise was McMahon of Nebraska, who won the third heat of the 440-yard run in 49.5-5, 20 yards ahead of his nearest competitor. Other trials were in the 880-yard run and the javelin throws. Predictions leave Michigan, Chicago and Illinois as the probable outstanding schools.

Wisconsin's three entrants failed of qualifications by narrow margins. Kayser missed getting into the finals of the 440-yard dash by six inches, running the fastest heat. Mueller, in the javelin, was sixth. Five men qualified. Ramsey lost a place in the finals of the 880-yard run by a foot, also competing in the fastest heat.

TREATY WILL NOT BE GIVEN TO SENATE

Say Wilson Will Hold It Is Not Compatible With Public Interest

IS WORD FROM PARIS

Preparations Being Made In Investigation to Be Started Monday

(By the Associated Press)

PARIS—The American delegation to the peace conference apparently is firm in its decision not to authorize the publication of the German peace treaty until it is signed and not even to communicate the official text in its present form to the United States senate.

Administration officials believe President Wilson's reply to the senate resolution asking for the peace treaty will be that it is not compatible with the public interest to furnish the text at this time. This belief was strengthened by dispatches today from Paris saying the American peace delegation apparently is firm in its decision not to authorize publication of the treaty until it is signed.

Preliminary preparations were being made today for the investigation to be conducted by the senate foreign relations committee in private hands in this country.

Senator Lodge today called a meeting of the senate foreign relations committee for next Monday to consider procedure in the investigation ordered by the senate of how the text of the treaty reached persons in New York.

With the vote of the telephone operators and electricians' union last night favoring a strike in case sympathetic action is taken in Madison in support of the machinists, 12 unions have now voted to strike.

With the vote of the telephone operators, the situation presents a critical angle. Telephone service, with lack of ice and coal, as the result of the vote the night before last by the ice and coal men, would serve to put the city under serious difficulties.

The general strike committee this morning issued the following statement in explanation of their stand in case the general strike is called in their support:

"We, the undersigned feel it a duty we owe to the public, an explanation of our attitude in the controversy now on in the Madison machine shops.

"All that we ask of the employers is that they put into effect the award as handed down by Umpire Charles H. McChord on Feb. 18, 1919, and which was published in the daily papers on that date, one section of which reads as follows:

"The right of the workers to organize in trade unions and to bargain collectively through chosen representatives is recognized and affirmed. The workers shall have free choice in the selection of committees to represent them. And the employers shall meet with committees of their own employees for the purpose of adjusting such grievances which may arise."

Mr. Trainor is survived by his parents and six brothers, James, William, Robert, John and Philip. Trainor of this city and Edward G. Trainor of Los Angeles, Cal. The funeral will probably be held Monday morning from St. Raphael's church, with interment at Calvary.

English Woman Gets U. S. War Honors

(By the Associated Press) WASHINGTON—One woman was included in the list of citations made public by the war department today as the basis for awards of the distinguished service cross. Miss Jane Jeffrey, an English woman, serving as an American Red Cross nurse, was cited for extraordinary bravery in action. While on duty in a hospital she was wounded by an exploding aerial bomb, but refused to leave her post "though suffering great pain; her devotion to the task of helping others was inspiring to her associates."

UNIVERSITY LED ALL COLLEGES IN GEOGRAPHY WORK

Geography as a college study, since its first appearance in a university curriculum about half a century ago, is discussed by Prof. R. H. Whitbeck of the University of Wisconsin in a recent article in the Journal of Geography. He points out the following interesting facts:

In 1860 Harvard and Princeton were the only American universities offering courses in geography. Cornell and the University of Wisconsin introduced the subject in 1868, and Yale followed in 1872. In 1900 only twelve American universities taught the subject, but by 1910 thirty-one universities were offering a variety of 142 courses.

With 704 students enrolled in geography, the University of Wisconsin led in 1910. With 1,089 enrolled in 1917, it led all others except the University of Pennsylvania. It now offers seven courses in physical and economic geography, climatology, and other phases of the subject.

mittes be elected, it would be well to embody herein a copy of the supplementary award handed down on April 30, 1919, which is as follows:

Copy of telegram, Washington, D. C., April 30, 1919. To Paul C. Haybrecht, Capital Hotel, Madison, Wis.

After due conference with Umpire McChord on your request for interpretation of award under Docket No. 195, you are advised that bonuses and premiums shall not be taken into account in determining computation of back pay for overtime. Correct basis is hourly rate which employee received on Aug. 1, 1918. If above minimum fixed by award, taking into account any increases granted since that time. If hourly rate on Aug. 1, 1918 is below minimum fixed by award then such minimum is basis taking into account increases granted since that day when such increases raise hourly rate above minimum.

As to rates of wages over and above 40 cents minimum shall be determined. I call attention to the fact that this award gives the workers the right to select committees to represent them and directs that the employers shall meet with the employees for the purpose of adjusting any grievances which may arise. The question of rates of wages above 40 cents is proper matter for determination by such employees' committees and their employers.

Signed: E. B. WOODS, Chief Administrator, War Labor Board.

"You can readily see the importance of the election of proper committees to carry out the above."

"We wish further to state that shortly after the above award was handed down the employees of the various shops advertised and held open meetings where all employees, both union and non-union, were invited to attend and take part in the election."

"The elections were in no way influenced by outsiders. In each and every case the committees elected by the employees were denied the right of a hearing on the above subject by their employers."

"On May 14, Mr. Alpheus Winters arrived here to act as administrator in the premises. We entered into a compromise with Mr. Winters on the election of shop committees whereby the committees were to be elected in the shop. We were given to understand that about 90 per cent of the strikers would be back into the shops in about 14 days and that all striking employees would be taken back before any new men would be hired. The result was that less than 20 per cent were reinstated in 21 days and that new men were being hired while the strikers were left to walk the streets."

"Mr. Winters was again sent forth with a view to straightening out matters. We again offered to compromise. We were willing that shop committees be elected in the shops providing that employers would allow the striking employees who had made application for reinstatement, but who had not as yet been taken back into the shops, be allowed to vote in said election. This was denied us and the strike was again put into effect."

Signed: GENERAL STRIKE COMMITTEE.

AERO FIELD READY FOR 7 FLIERS SUNDAY

Final Touches This Afternoon—Will Arrive About Two O'Clock

Aviators flying seven giant De Havilland aeroplanes will arrive in Madison and land at the new municipal aviation field and hydroplane pier in Vilas park about 2 o'clock Sunday afternoon. Preparations have been made to handle the great crowds expected.

"And don't step over the sentry lines!" says Sgt. H. N. Ham. "You are liable to federal prosecution if you do." Company L will be there to let the crowds know where the lines are.

The planes are coming from St. Paul instead of La Crosse, as previously announced. The field is receiving final touches today and according to Dr. C. G. Dwight, in charge of the work, it will be all ready by late this afternoon. Ruts are being ironed out and smaller trees transplanted.

"Madison should supply 50 men for the air service," said Sgt. Ham of the recruiting office, 2 South Carroll street. "She must keep her place on the honor roll."

"Aviation presents one of the best opportunities available to any young man," he declared. "Enlistments for short periods of time are open with full advantages. A man can enter the service for three years, get a thorough knowledge of aeronautics and engines and be prepared to take up the business right when it will be coming in its prime."

Citizens are determined to have the Vilas park field permanent.

"We are going to have hangars," said Don E. Mowry of the Association of Commerce. "Madison will be the midway point between Minneapolis and Chicago on the new air route and we must get ready for it."

VALECIA MEN MUST SERVE PRISON TERMS

Milk Co. Promoter Turned Down by U. S. Court

The United States circuit court of appeals at Chicago yesterday confirmed the decision of Judge K. M. Landis at the La Crosse trial in which M. A. Fee, 313 West Wilson street, was sentenced to a term of three years at Ft. Leavenworth and fined \$500, and C. F. Christianson and L. P. Eason to six months in the house of correction in Milwaukee.

The men were convicted for using mails to defraud in connection with the sale of stock and origination of the Valecia Milk and Condensed Milk company of Middleton and other subsidiary companies.

The decision comes as a final victory for United States District Attorney A. C. Wolfe, whose offices are in the Federal building in this city. The trial at La Crosse in 1917 lasted for two weeks most of the time being taken up by a solid mass of testimony resulting from the investigations of Attorney Wolfe.

M. A. Fee is at present in Madison and will be taken to Leavenworth as soon as the papers can be gotten through. Christianson is in Chicago and Eason was killed in an accident in Detroit several months ago.

The organization and operations of four large concerns, three capitalized at \$100,000 and one at \$600,000, made up one of the most intricate frame-ups in the history of Wisconsin.

In the trials interest centered about an unqualified indorsement of the Valecia company by L. E. Gettel, as secretary of the Railroad Commission, through which the firm was able to evade the blue sky law of Kansas and unload large quantities of stock, and an alleged \$1,000,000 secret process for milk making which was proved to be nothing but the accredited system.

The men began their activities in 1911 in the organization of the Denmark Construction company, in which they were stockholders and officers.

10 IRISHMEN SLAIN; WALSH URGES ACTION

President Wilson is Asked To Act On The Situation

(By the Associated Press)

PARIS—Within the last few months 10 citizens have been killed in Ireland by soldiers or constables under circumstances found by coroners' juries to have been wilful murder. This charge is made in the report on observations made in Ireland by Frank P. Walsh, Michael J. Ryan and Edward F. Dunne. The report was sent to President Wilson along with the demand that the peace conference investigate the Irish question.

Charges are made that hundreds of men and women were put in prison without any specific accusations being made against them. The document says that at least five men died as a result of atrocities in prisons.

It also is alleged that punitive measures of the prison authorities included drenching with water bringing on pneumonia, solitary confinement and withholding of rations. It is stated further that the heads of hundreds of families were sent to jail or deported, leaving dependent women and children without means of support and to become objects of charity.

Everyone Should
Drink Hot Water
in the Morning

Wash away all the stomach,
liver, and bowel poisons be-
fore breakfast.

To feel your best day in and day out, to feel clean inside, no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gas, acid stomach, you must bathe the inside like you bathe the outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, use this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

PARIS STRIKE
SEES NO CHANGE

Some Minor Matters Set-
tled But Additional
Walkouts Occur

(By the Associated Press)
PARIS—The strike situation was unchanged this morning. While a few of the smaller walkouts have been settled, several fresh ones have broken out. The principal strike movements are in the transportation and metal industries.

The railroad men of the Paris district held a stormy meeting last night, the extremists being much in evidence. While the meeting did not vote for an immediate strike, it was decided to make preparations for a cessation of work.

The general labor federation has issued a proclamation endorsing strikes which now are going on but at the same time exhorting the strikers to keep the movement on a purely professional ground, not concerning themselves with a program of social claims such as amnesty, demobilization, no military intervention abroad and a quick and lasting peace.

WINNIPEG—Labor agents attending the city council meeting, said that "an important announcement might be made late this afternoon."

(By the Associated Press)
WINNIPEG—Mayor Charles F. Gray faced a heckling crowd of strikers and strike sympathizers shortly before noon today at Victoria park and told the mass-meeting that the city would not recede one inch from its determination to employ every legitimate means to maintain law and order, to feed all citizens and to combat the sympathetic strike of municipal employees. Gray told the strikers that he would be "a spineless pup" if he acted otherwise. He held out no offer of compromise to those who quit city jobs, despite the city's ultimatum against strikers who are now asking that they be given back their old places. He intimated that former employees must enter the city's service as newly hired workers.

Railway brotherhood executives announced that no reply had been received from Winnipeg industrial employers as to acceptance of the brotherhood's plan of collective bargaining offered for mediating the dispute between the metal workers and the industries involved.

BADGER TRACK
MEN COMPETE

No Chance for High Place
in Conference Meet at
Chicago Today

Wisconsin's track athletes compete with the crack teams of western universities at Chicago today in the annual conference championship track meet.

Coch Tom Jones left with the Badger squad yesterday to enter his men in the elimination events held yesterday afternoon. The Cardinal team is the smallest in numbers that has entered the final contest in many years, and even the most optimistic cannot place Wisconsin's chances up among the leaders.

The Badger entries are Hsieh in the 100 and 220-yard dashes, Kayser in the quarter, "Mike" Ramsey in the half mile, Elsom, Smith, and Brothers in the mile, Meyers and Burr in the two mile, Spafford, Edwards and Reed in the hurdles, Edwards in the high jump, McCarty in the pole vault, and Mueller and McCarty in the weight events.

Michigan rules a favorite in the meet, with Chicago, Illinois, and Notre Dame pushing hard for honors with well balanced teams. The number of individual stars entered foretells a fast field in every event and may result in a few smashed records. Michigan looks to Carl Johnson, star hurdler and sprinter who took individual honors with 12½ points in the big Eastern meet at Harvard, for a big share of her scoring. Chicago has Gorgas, Kennedy, and Moore. Illinois has Wilson, Carroll, and Buchheit, and Notre Dame places her main strength in Gilliam and Hayes. Hayes won first against Johnson of Michigan in the century dash in a recent dual meet.

GERMAN COURTS

New Rhenish Regime Op-

(By the Associated Press)
WIESBADEN—Opposition to the Rhenish republic is growing here each day. The judges of the province are the latest to defy the new government and with court employees, have declined to recognize the legality of the regime headed by Dr. Dorten.

The French are reported to have made definite promises to the Republic in the shape of officially settling wine and food prices on a peace basis and also fixing the value of the mark arbitrarily at one franc, 23 centimes. A general protest strike occurred here yesterday.

DARMSTADT—Ten persons expelled from Portions of the Rhineland occupied by the French because they refused to deal with the new republic, it is alleged, have reached this city. They claim to have been confined by the French in the barracks at Worms and some say they were not given food for 24 hours, were placed in cells without sleeping accommodations and were insulted and maltreated by French officers.

CHEESE MEN UNITE.

Wisconsin Association Sells Their
Own Product.

From National Equity News
Sales of American or cheddar cheese of more than 18,000,000 pounds in 1919 by the Wisconsin Cheese Producers' association and 6,000,000 pounds of the cheese market by the federation are the confident predictions of ex-Senator Henry Krumrey, Plymouth, Wis., president.

This estimate, which means that the federation expects to handle twice as much cheese as in any previous year, is based on the number of cheese factories which have joined the federation.

Originally the association appealed to cheese factory patrons within a radius of 100 miles of Plymouth to join hands in defeating the alleged aims of the "cheese trust."

This has grown until more than 100 factories are doing business with the home office. Thirty-five Sauk county producers in the region around Spring Green have joined the federation. With other factories which have not been organized, but who have applied for membership, the federation is certain to receive the product of not less than 150 factories this year.

Producers to Control.
The ultimate aim of the federation, Mr. Krumrey admits, is to control the market of Wisconsin cheddar cheese, which amounts to 65 per cent of the output of the United States, but this Mr. Krumrey insists will not be replacing one trust with another, but returning the control to the producers.

In 1917, the federation handled the product of 64 factories, a little less than 9,000,000 pounds. Last year the federation included the patrons of several more factories, but the total output was practically stationary.

Has a Surplus of \$80,000.
Patrons received market price for cheese. The federation, in the five years of its existence, has returned a surplus of \$80,000 to the producers—the farmers—in the form of deferred payments, undivided profits, or investment in the \$25,000 cold storage plant.

Distribution of cheese has been interfered with, but not delayed by a fire which destroyed the company's office and part of its warehouse two weeks ago. Temporary quarters have been obtained. Farmer's Dispatch.

NEW YORK LABOR FEDERATION
DECLARES WAR ON
PROFIT-ERS

A special convention of the New York state Federation of Labor was held in the McAlpin hotel, New York City, on May 2, to consider practical plans for a substantial reduction of the cost of living. The delegates present represented 200,000 members of labor organizations throughout the state.

"You are here," said James P. Holland, president of the federation,

"not to demand action on the part of your representatives in the municipal, state or federal governments. You are here to find a way out of the difficulty for yourselves. Not only our union members, with their 2,000,000 dependents, look to us for relief, but so also do at least 5,500,000 people of the world's greatest city. Every day that is lost in idle talk without real action being taken means a theft by the profiteers of more than a million dollars from the people of Greater New York."

John F. Pierce, representing the needle workers, presented a resolution authorizing the chairman to appoint a committee of five to prepare a definite plan whereby action could be taken, "and particularly to study the methods of the British Co-operative Store System," with a view to adopting it for New York.

"There won't be a moment's needless delay on the committee's part," said Mr. Pierce, after he had

been appointed its chairman. "Anticipating the action of this meeting, a beginning has already been made in the direction of seeking expert advice on a feasible way of adapting the essential principles of the British Co-operative system to New York conditions."

The committee, the other members of which are John Sullivan, of the brewery workers; E. Kauffman, of the garment workers; E. J. Deering, of the machinists; and J. Snyder, has been in close touch with the Co-operative League of America. At a joint meeting of the committee and the officials of the league, held on May 5, a tentative program was mapped out, for the consideration of the general membership of the federation. The plan includes a strong campaign of agitation and propaganda in the Bronx section of the city, to be followed by the establishment of a grocery depot on the Rochdale system. MORTAR BOARD ANNOUNCES 12 NEW MEMBERS

Swing-out is Occasion for
Women's Honorary
Elections

Mortar Board elections were announced at Swing-out last night. Those elected were Beatrice Beal, Daphne Conover, Margaret Craghill, Marguerite Nuzum, Eleanor Galk, Phyllis Hamilton, Amy Johnson, Gertrude Noetzel, Doris Simonson, Helen Snyder, Louise Weld, and Dorothy Belle Wood. Mortar Board represents the women who are recognized as giving the highest service to the university, as possessing high scholarship and characters worthy of representing the University of Wisconsin's honorary women's society.

This is the second year that the announcements have been made at the junior farewell to the seniors. Swing-out was well attended and started off the weeks of graduate activity. As planned, the senior women, accompanied by Dean Nardin, marched in cap and gown and were escorted by the women from the lower classes, carrying the spruce chain. The procession, led by the university band, paused before the Biology building. The seniors were seated on the steps and the space on the lawn before them was the scene of the class stunts.

Fresh Show Seives
The fresh women distinguished themselves in their interpretation of the "Seven Ages of a Co-ed," the ages being cabbage, sausage, garbage, package, rampage, bonnage, and defuge, each age acted according to its name. The sophs danced a tribute to the spirit of the women of 1919, the dances representing loyalty, self sacrifice, friendship, womanliness, life and spirit. The juniors stung was Wisconsin's welcome to her sons and daughters in the service, and was carried out by the appearing of women dressed in the flags of the allied nations. Women dressed in Chinese costumes were led in gym drills by a make-believe Miss Mayhew.

After the stunts, the seniors marched through the gateway, wreathed with branches, and formed a V to witness the ceremony of the seniors handing down the Blue Dragon torch to the juniors. Lucy Wallrich, president of Mortar Board, made the Mortar Board announcements to the crowd which had been waiting for this unusually interesting part of the Swing-out. The classes then made their way to Muir Knoll where original songs were sung.

ELECTRICIAN FOR 19 SENIOR PLAN

Merrill Goddard

Ray Holcombe, production manager of the senior class play, has appointed Alvin Klann as stage manager and Merrill Goddard as electrician.

The two are a familiar stage team with experience. Klann practically ran the stage end of Union Votvil this year, was electrician last year, was in the "Haresfoot Follies," and prominent in Prom arrangements. He is also helping in the staging of the same play, "Pomander Walk," at West division high school, Milwaukee.

Goddard is a Madison man with experience as stage electrician. He has to his credit the production of those beautiful light effects in the junior play, "The Romancers," the electric work at Union Votvil, besides a well-grounded field for such work at Madison high school.

Stage manager Klann assures that with such a beautiful natural setting as the outdoor stage presents, "Pomander Walk" will be a masterpiece in stage setting.

Today's Summary —From Europe—

(By the Associated Press.)

There is every evidence that the leading foreigners of the peace conference in Paris are endeavoring to hasten the delivery of the allied reply to Germany's counter-proposals to the terms of peace.

According to advices positive instructions have been given by the council of four to all commissions working on the reply to complete their reports by Monday.

From reports coming from Paris it seems there is growing a sentiment in the council that alterations must be made in the treaty, but in what particulars as yet indicated. Premier Lloyd George is attending meetings of the British commission studying the reparation phase of the treaty.

Count Von Brockdorff-Rantzau, head of the German peace mission, left Versailles last night for Germany. It is reported from Paris that he is expected to return Sunday. French official circles are said to expect the Germans to refuse to sign the terms, and it is pointed out that as delay would favor the Germans there is necessity for haste in bringing exchanges between the allies and the enemy to a close. A more hopeful sentiment is said to be apparent in Berlin.

The Italian claims to territory on the eastern shore of the Adriatic also are causing some uneasiness in peace conference circles. The Italian parliament will meet June 18 and Premier Orlando is demanding that a settlement be reached by that time.

Admiral Kolchak's operations in eastern European sections are said to have been checked by the Bolsheviks, and it seems probable there will be, to say the least, quite a serious delay in carrying the campaign to a conclusion. Hungarian Bolshevik forces continue to advance against Czech troops between Budapest and Vienna. They are reported to have crossed the Danube at Gram. French generals are said to be in command of the Czech army there.

Announcing the Opening of PERLMAN'S NEW STORE TODAY-Saturday-TODAY

THE average American citizen is able and willing to pay for everything he gets, but he wants to feel quite sure that the article purchased is worth the price paid for it.

No patron ever left a dollar in the Perlman store that they didn't receive full value in exchange for it. That's why this business grows, develops, expands—that's why it enjoys the enviable reputation of being one of the leading establishments for men, women and children in Madison.

Our new store is now most ideally located on the corner of Mound and W. Washington Ave., extending about 100 feet on both streets.

It occupies 2500 square feet of floor space, and our friends tell us that in point of elegance, artistic arrangement and shopping conveniences it compares most favorably with any store devoted to a similar purpose in Madison.

Perlman feels that this Opening Week is also a fitting time to formally announce a complete showing of summer merchandise. Summer merchandise will be everywhere in evidence and beautiful decorations will add to the attractiveness of the occasion.

Coming Year

"Roughneck" Journalists Close Year With Banquet

To celebrate the close of a successful year members of the board of directors and of the staff of the Wisconsin Engineer had a dinner at the Capitol cafe, followed by an "Orph" party, on Thursday evening. Twenty-two faculty members and students connected with the publication were in the party. The Wisconsin Engineer was one of the very few college journals that continued publication throughout the past year. In spite of the difficulties encountered during the S. A. T. C. period, the magazine was a success, editorially and financially. In fact, the list of subscribers and the number of cash sales grew constantly, students of other colleges finding the humor of the "Campus Notes" and other features worth while.

FACTS DON'T JIBE

IN the assembly the other day in the discussion on the Evansville outrages Assemblyman Nolan asked that Rock county be left to settle her own affairs.

"Rock county is the best county in the state," said Assemblyman Nolan.

The same day Uncle Sam's officials were placing Janesville on the blacklist and entering an order prohibiting U. S. soldiers from going there because of the lack of law and order.

LIBERAL INFLUENCE BEING FELT.

INDICATIONS that the world-wide protest against the peace treaty is beginning to have some effect at Paris is indicated in the meager news that comes through from the French capital.

There is a wide-spread feeling among liberals over the world that the treaty is not a guarantee against future wars but a cause of future war. So general has this feeling become, even in England, that Lloyd George felt it necessary to summon the English cabinet to Paris in order to discuss the headway English liberals are making in their objection to the treaty.

The clergy is also beginning to exert its influence against the present document. Rev. William Austin Smith, leading Episcopalian clergyman of this country, voices the sentiment of a large branch of the Christian church when he says of the treaty:

"It is a good peace," so Clemenceau is reported to have said. Bismarck made the same remark on his way home from Versailles, so history records, nearly fifty years ago. We see no promise that the present peace will hold for fifty years in Europe. Only time can test the diplomatic goodness of treaties.

But what shall Christians say about the treaty of peace? Diplomatic goodness and Christian goodness, we have of late come to perceive, may not be identical in form and matter. When we try to scan the terms of the treaty not as Americans or French or English or Italians, but as Christians, Christian English or French or Italians, we confess to feeling bewildered. We are bewildered because we find no promise in the treaty of a new era of peace and good will on earth. It is like the treaties of peace which the victor in Europe has always forced upon the prostrate foe. The nations leave the peace table, bitter, jealous, some of them with irreconcilable hatred in their hearts. So it has always been. The question is, were Christians foolish in supposing it could be different in this world? Our bewilderment is born, perhaps, of foolish hopes, hopes fostered by some of our President's eloquent utterances, and fostered also by the prayers we had said that this be a war to end war. Our disappointment is that the peace treaty of 1919 cannot end war; militarism is still alive, made necessary by the very terms of the peace treaty. But the Christian will go on dreaming, praying, hoping that one day on earth God may bring together the nations to sign a treaty which may be called the peace of Jerusalem, the peace of God—a peace over which brothers might without hypocrisy or sacrilege repeat our Lord's Prayer.

Diplomats, statesmen, have not given us a Christian peace. Perhaps they cannot. That is what bewilders those who hope to build on earth a kingdom of heaven.

Liberal opinion in this country is also voiced by Amos Pinchot in a statement which he has issued on the subject. He says:

The peace terms offered Germany are simply a reshuffle of the Secret Treaties. Most intelligent observers have foreseen that the humane peace which Mr. Wilson proposed to bring back would turn out to be an imperialist compact through which the conquered nations would be industrially crippled and the victors enabled to possess whatever they can conveniently use. The treaty is simply a glorified Rivers and Harbors bill. It has no relation to civilized settlement and makes lasting peace impossible. It breaks every important pledge made by Wilson and Lloyd George. It discredits the American and Ally governments more than could five years of revolutionary propaganda. The revolutionists all over the world will be grateful to the Big Five delegates for over-reaching themselves so thoroughly.

On January 29th, the writer published through the United Press the following statement:

"If the terms of the secret treaties are carried out by the Allied governments (and representatives of Great Britain, France and Italy have already declared their intention of doing so), permanent peace becomes exceedingly improbable; and the conference at Versailles will merely set the stage for other conflicts, more terrible than the one recently ended. These agreements, some in the form of secret treaties duly signed and sealed, and others mere gentlemen's agreements, between the various governments, dominate the situation. While they exist the European representatives at Versailles are not free agents. They are mere attorneys, pledged to negotiate for their clients out and dried schedules of annexations and trade redistributions which have nothing to do with democracy."

Not primarily for the sake of Germany, but to preserve the dignity of the American people who pledged themselves to a war to end war, and to, in the words of Mr. Wilson, a peace "the very principle of which is equality and a common participation in a common benefit," the United States should indignantly reject this treaty and demand a separate peace. If we do not, history will write us down as a nation of hypocrites. America is as seriously, I think more seriously threatened by the peace treaty than are Germany, Austria

and China. They will lose materially. We will lose our self respect. Meanwhile recent Associated Press dispatches state that there is ground for feeling that the treaty made be modified in some respects.

STATE NEWS

HAS HORRIBLE DEATH
MARINETTE—John Beraghen was fatally burned in an acid tank at the Kimberly Clark mills, Niagara, Wis., Wednesday. He was climbing near one of the large acid tanks when his clothes became caught in a revolving pulley and he was thrown into the tank. Fellow workmen managed to get him out of the tank but he died a few hours after reaching the hospital.**RED ARROW DIES**
LA CROSSE—The first of La Crosse's 32nd division heroes to die after returning home is Andy Kleppen of the medical detachment of the 128th infantry. He passed away following an operation to relieve an infection of an ear. Kleppen was a veteran of the Philippines also.**For Sane Fourth**
LA CROSSE—Wishes of La Crosse's returned soldiers prevailed so far as the Fourth of July celebration is concerned. There will be no fireworks and the khaki clad heroes will not parade in uniform. They voted against it. An all day outing in one of the city's largest parks, free food, drink and music and a dance in the evening out of doors will comprise the program of the day. There will be no speeches, just a good time for all.**"BREAKS HER PLATE"**
LA CROSSE—West Salem—Gus Rhodes "dozen-eggs-a-day" hen laid only one egg on Wednesday following a long season of record breaking laying. Tuesday's results was ten eggs. J. H. Hanson, La Crosse poultry fancier who says the hen lay 14 eggs without getting off her nest, has sworn to the truth of the hen's record.**'T WAS NOT A BOMB**
RHINELANDER—Bang! and a half dozen of the local postoffice force went post haste under counters and in all directions. It was nothing but an electric light globe which exploded with a bang here, but the clerks suspected that it was a bomb.**RHINELANDER SIGH!**
RHINELANDER—It is probable that Rhinelander will go dry for the first time in its history July 1. Not a single application for license has been filed at present and only about a week remains until the time limit for local licenses run out. Apparently local saloon men do not believe the present war time prohibition act will be amended. Unless their applications are filed by the fifteenth, they will be forced to close July 1 even should action permitting liquors to be sold be passed by congress.**GETS BIG PICKEREL**
RHINELANDER—A "tiger" pickerel weighing fourteen pounds was caught near this city by Irwin Cole. The big fish, while not the largest caught in this section, is considered a "big fish" and is a fine specimen.**GET 8 HOUR DAY**
RHINELANDER—With only two dissenting votes the city council passed the 8-hour resolution giving city employees the basic 8-hour day, time and one-half overtime and double time for Sundays and holidays. Another resolution increasing the wage scale of city employees was passed unanimously. It increases the pay of members of the street department fifty cents per day.

Tuesday and Wednesday—Bryant Washburn in "Something to Do."
Thursday, Friday and Saturday—Geraldine Farrar in "Shadows."**THE GRAND**
A race with a dirigible and a sensational rescue with a hydroplane. A well-staged burglary, developed along original lines, a smart charity bazaar and a raid on a swell society gambling house are among the many exciting incidents which keep the interest up to fever heat in "Stolen Orders" at the Grand today.**ORPHEUM**
With three more performances, a very good bill which is now on at the Orpheum, will close this evening. The acts appearing are Cabaret De Luxe, Roth and Roberts, Frank Hall and Co., Billie and Dot, and Wurnelle. Winona Winters, one of the most popular entertainers that come to Madison, will be heard in late song successes four days commencing tomorrow afternoon. The Holland-Dockrill troupe, beautiful equestrian act; Allen and Betty Leiber in "Breaking It Gently"; Mabel Tarper, assisted by Elsie Weber; Rialto and LaMont, the Talkless Boys, are to appear.**THE FULLER**
As Puckers, the torment and delight of all who know her, Mabel Normand comes to the Fuller theater today in her Goldwyn picture appropriately named "The Pest." She is by turns rollicking and wistful and displays a degree of pathetic appeal which promises to surprise her admirers.**STRAND**
Elsie Ferguson's latest Paramount photoplay, "Eyes of the Soul" will be displayed at the New Strand theater for the last times today. It is an adaptation from the famous Saturday Evening Post story, "Sak of the Earth." The remainder of the program consists of a comedy and the Literary Digest. Dainty Vivian Martin will appear in "Little Comrade," tomorrow and Monday. The story deals with the adventures of

a little farmette who does her bit for her country in a most attractive manner.

MAJESTIC
Another fine William Fox production called, "The Forbidden Room," will be the attraction at the Majestic today. Gladys Brockwell is the star. The Forbidden Room is said to be a powerful story, well fitted to the talents of Miss Brockwell. It was made at the William Fox studios at Hollywood.

CAP NIGHT CHANGED TO NEXT THURSDAY

Senate Set Event Ahead Lest It Disturb Exams

Cap night will be next Thursday instead of Friday. The student senate decided to hold the annual affair on June 12 instead of June 13 as originally planned. The holding of cap night on Friday would have interfered too much with examinations.

The senate passed a motion yesterday to "Bud" Follett, for not enforcing the rules of the senate; by permitting some men to be ducked offener than was ordered; and not ducking other men.

With a view to maintaining order on cap night, Maurice "Moose" Hanson, with the assistance of the police, was given full authority to take charge of the burning of fresh caps.

The senate elected Lawrence W. Hall, John W. McPherrin, Whitney N. Seymour, George C. Bunge, and C. Wesley Travers to the elections committee for 1919.

Classie Commences at 3:30;
Continues Until
Night

The most striking athletic event
of the year will be held when the
third annual Field day opens this
afternoon at 3:30 at Camp Randall.
Over 300 women will take part in
the events which make up the pro-
gram.

In case of rain today plans of
the committee in charge will be an-
nounced on the bulletin board of
the S. G. A. office after 10 o'clock.
Games, dancing, a May pole, ath-
letic contests will take up the day
until late in the evening. Supper
will be served at 5:45. Side show
attractions will add to the interest.

The events will commence with
an interclass track meet, exhibition
baseball and cricket, games, and
championship tennis games. Later
there will be an archery tourna-
ment at thirty and fifty yard ranges.
The May pole and folk dancing
will start at 5:15. At 6:15 a dance
drama given by members of the
dancing teams under the direction
of Miss H'Doubler will be held. Af-
ter Greek games consisting of
chariot races, the discus throw,
hurdling and wrestling, a Cycle of
the Hours, entirely original work
of the dancing teams will conclude
the events of the day.

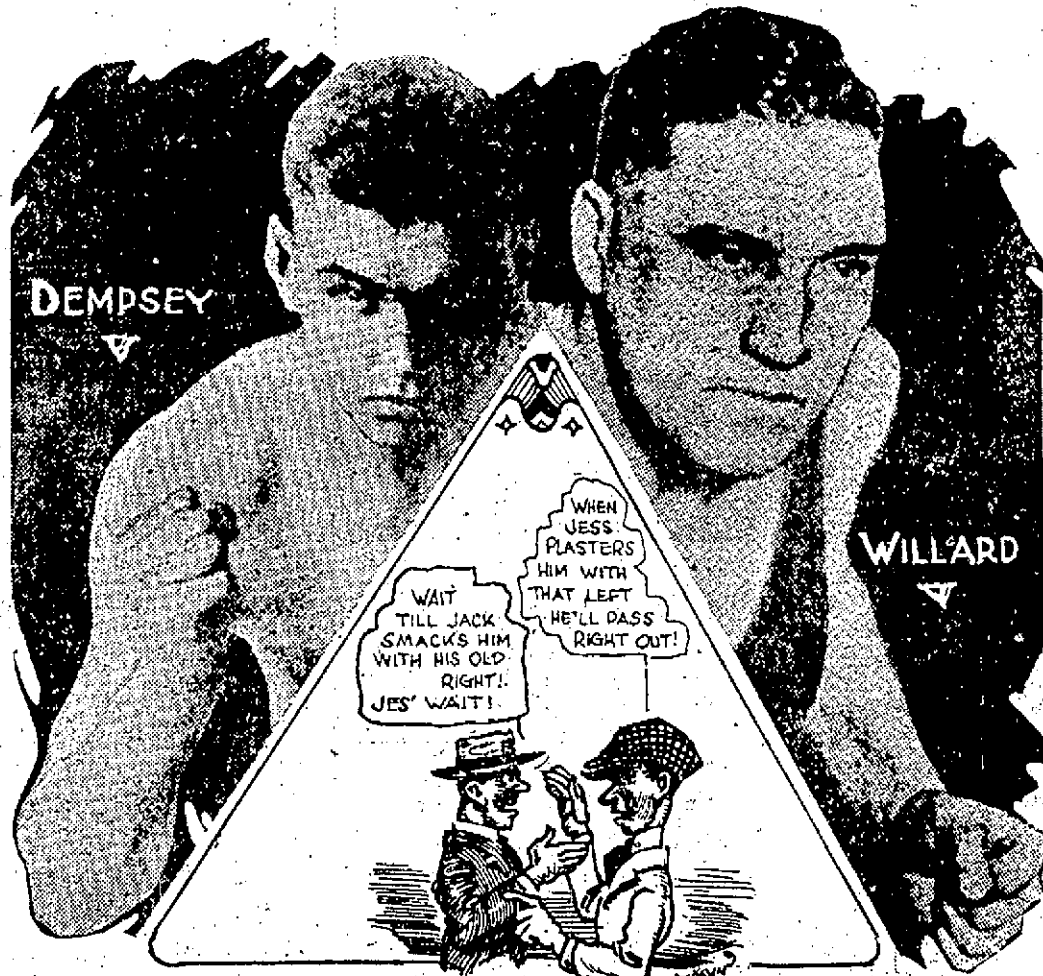

Field day this year has been in
charge of Isabelle Waterman, with
Miss H. R. Brown of the depart-
ment of physical education as fac-
ulty advisor.

Elaborate programs of Field day
containing the names of commit-
tees, teams, the folk dancers, a syn-
opsis of the dance drama, and the
Wisconsin women's records for the
track events are being sold for 15
cents, the proceeds to go to the
Rose Sidgwick Memorial scholar-
ship.

CAN DEMPSEY'S RIGHT STOP WILLARD'S LEFT?

Jack Dempsey and his right arm, at left, and Jess Willard's wonderful left.

Jess Willard's left hand and arm
is the big fellow's greatest asset
insofar as pugilistic ability is
concerned. With it he can jab as

rapidly as many of the fastest
little men in the ring. Willard's
friends say it carries the neces-
sary kick, too. Experts are agreed

that Dempsey must stop Jess'
southpaw mitt if he hopes to
annex the title when the pair meet
at Toledo, July 4.

VARSITY PLAYS
NOTRE DAME IN
FINAL CONTEST

Catholics Here Today for
Return Tilt; Williams
May Pitch

The last regularly scheduled
baseball game of the season will
be played with Notre Dame univer-
sity at Camp Randall, at 2:30 this
afternoon.

Although it is the last scheduled
game it may not be the last one of
the season. Coach T. E. Jones is
trying to line up a contest for next
Thursday, Homecoming day, but so
far has been unsuccessful.

Williams, will probably do the
pitching for the Badgers although
Coach M. A. Kent may charge his
mind and send Miller to the slab.
Miller pitched a good game against
the Catholics in the first game of
the season, and if given a chance
should be able to give them another
run.

Same Line-up Given.
Williams has shown up well in
the last two games which he
pitched. He let Milwaukee Normal
down with five hits and almost beat
Chicago at Stagg field last Satur-
day afternoon.

The rest of the lineup will remain
very nearly the same. Cramer at
first, Keyes at second, Barlow at
the short stop position, and Lyman
or Sutton at third, will compose
the infield. Abrahamson will take
Emmanuel's place behind the bat,
later being unable to play be-
cause of a stiff leg. Wall, Edler,
and Doyle will make up the out-
field.

Varsity Ready for Catholics
Murray will undoubtedly be the
twirling for Notre Dame. The big
left-hander has pitched good ball
this season and was the only pitch-
er able to beat Michigan.
The varsity has been working
hard this week in anticipation of
what was supposedly the final game
and has not been in better condition
or shown better form all season.
The freshmen were beaten in two
practice games and the rest of the
time spent in hitting and fielding
practice.

Annual Dance Recital at Kehl's
Academy tonight. Dancing after
program. Public invited.
